As soon as you walk through the doors you can see the Belinda the cow painting, the reading corner and the two classrooms combined to be one learning area. Mrs Johnston’s class, 1/2C, has lots of talented children who are really engaged in their learning.

This week we interviewed two students from 1/2C. The first student interviewed was Naisha Udani. Naisha said that her onomatopoeia word on the wall is the best work Naisha has done. She also said it was the best work because it shows her beautiful handwriting and colouring she has done. Usually all the students are challenged especially in the spelling test. Naisha’s goals for the year, is to be the best at all subjects in 1/2C.

The second student interviewed was Bryce Ascough. Bryce has been participating in activities such as the Belinda the cow painting. We asked Bryce what subject he wanted to add in 1/2C as a weekly routine. Bryce said that he wanted to add science because he said it is very interesting and experimental.

Mrs Johnston, the class teacher was also interviewed. Mrs Johnston’s best moment in 1/2C was Circus Circus because all the children played Minute to Win it, had fun and tried to win several games. She has created a system on how children can make friends, learn together and work together. 1/2C has learning buddies. Mrs Johnston always says that if you make mistakes you learn.

1/2C students always try their best no matter what!
